

“Sarona, Tel Aviv”

Zoe Sever
Oil and acrylic on canvas , 40 x 50 cm, signed, 2024

Zoe Sever is a painter who masterfully combines color and texture. In her profound multilayered paintings she paints the landscapes of her beloved country displaying her unique creative artistic vision. Sever builds her unique style and develops it in her unique uncompromising way. Sever's figurative, eclectic, naturalistic, and naïve painting are displayed in Israel and abroad.

Sever noted that the object of her love is Israeli landscape, which she sees as a fascinating colorful mosaic built of an amazing medley of voices, sounds, colors, and styles in cities and in nature, of East and West.

Sever works and creates her art in the innocence and the sublime sharpness of a glance. The common denominator is an observation of the world as a strange and alien object, as an obscure drama.

With noble beauty, which she finds in typical and wild Israeli nature scenes, Sever paints her well-known urban views while she couples the pure and sincere innocence with symbolic and mythic details. Thus, she creates deep and meaningful allusions in her drawings, full of spatial movement.
