

July 20, 2025

Chief of the General Staff Eyal Zamir
Israel Defense Forces

Major General Ghassan Alian
Head, Coordinator of Government Activities in the Territories

Dear All,

Today, the Israeli media reported a statement from the Palestinian Ministry of Health claiming that at least 73 people waiting to receive humanitarian aid in Gaza were killed.

If true, this constitutes a severe violation of medical ethics and international law.

We would appreciate your detailed response, including clarification of the facts, in order to address claims we are receiving from various parties.

Sincerely,

Prof. Zion Hagay
President, Israeli Medical Association
