| Ari Leppaniemi (Finland) | Manu Malbrain (Belgium) |
| Junichi Matsumoto (Japan) | Pradeep H Navsaria (South Africa) |
| Kemal Rasa (Turkey) | Viktor Reva (Russia) |
| Massimo Sartelli (Italy) | Robert Sawyer (USA) |
| Vishal Shelat (India) | Jean Louis Vincent (Belgium) |
| Michael Sugrue (Ireland) | Edward Tan (The Netherland) |

Program:

January 20th, 2021 - 3.00 to 4.00 p.m. CET

Severe peritonitis:

to leave the abdomen open vs. to close it

PRO Open Abdomen Andrew Kirkpatrick
CONS Open abdomen Marja Boermeester

February 25th, 2021 - 3.00 to 4.00 p.m. CET

High grade splenic injury:

angioembolization vs. splenectomy

PRO Splenectomy Walter Biffi
PRO Angioembolization Pradeep H Navsaria

March 26th, 2021 - 3.00 to 4.00 p.m. CET

Complicated acute diverticulitis:

resection and anastomosis vs. Hartmann proc.

PRO Resection/anast Fausto Catena
PRO Hartmann Yoram Kluger

April 30th, 2021 - 3.00 to 4.00 p.m. CET

Fluid management in abdominal sepsis:

fluid restriction vs. liberal administration

PRO Fluid restriction Manu Malbrain
PRO Liberal administration Jean Louis Vincent

May 27th, 2021 - 3.00 to 4.00 p.m. CET

Hemodynamically transient responders trauma patient: CT scan or not

PRO CT-scan Junichi Matsumoto
CONS CT-scan Edward Tan

June 25th, 2021 - 3.00 to 4.00 p.m. CET

Hemodynamically unstable patients in pending cardiac arrest: resuscitative thoracotomy and REBOA

PRO Resuscitative thoracotomy Demetrios Demetriades
PRO REBOA Viktor Reva

September 24th, 2021 - 3.00 to 4.00 p.m. CET

Intra-abdominal infections:

long course vs. short course antibiotic therapy

PRO Long course Kemal Rasa
PRO Short course Robert Sawyer

October 29th, 2021 - 3.00 to 4.00 p.m. CET

Severe thoracic trauma and flail chest:

rib plating vs. conservative management

PRO Rib plating Joe Galante
PRO Conservative management Raul Coimbra

November 26th, 2021 - 3.00 to 4.00 p.m. CET

Non complicated acute diverticulitis:

antibiotic treatment vs. non antibiotic treatment

PRO Antibiotic treatment Massimo Sartelli
CONS Antibiotic treatment Ari Leppaniemi

December 17th, 2021 - 3.00 to 4.00 p.m. CET

Severe acute cholecystitis in high risk patients:

cholecystectomy vs gallbladder drainage

PRO Cholecystectomy Michael Sugrue
PRO Drainage Vishal Shelat

Logistical information: Introduction 5 min, Pro and Cons debate 15 min + 15 min, Discussion, Questions and Conclusion 20 min. Total 60 minutes. Free participation on Zoom platform.
