Adv. Efrat Peled Harush
Head of the Inmate and Administrative Proceedings Department
Israel Prison Service – Legal Bureau

Re: Update regarding the condition of Dr. Hussam Abu Safiya

Further to your letter dated February 5, 2025. Since receiving your letter, we have received additional inquiries from international medical organizations, including the World Medical Association (WMA), requesting updated information regarding the condition of Dr. Hussam Abu Safiya, who is currently in detention.

We would appreciate knowing whether there has been any change in Dr. Abu Safiya's condition, whether he continues to be legally represented, and what charges have been brought against him, so that we may provide accurate and well-founded responses to the inquiries we continue to receive from health organizations around the world.

We look forward to continued cooperation.

Sincerely,

Malke Borow, Adv.
Director, Division of Law and Policy
Israeli Medical Association
